

Subject: Garden Club Troughs

Dear Mrs O'Hagen

The Gardening Club Committee have asked me to write to you to request help in watering the troughs outside the Town Hall. The club was asked by the Town Council to plant and maintain them about 10 years ago (long before my time) and several members, including Peter and Angela Jenkins, have willingly undertaken the task, particularly planting the troughs.

Unfortunately we were not able to plant up the troughs this summer as we no longer have enough members to water them on a regular basis as most of our members are elderly and many do not live in Wem. We are aware that the hanging baskets are regularly watered and we are asking that the troughs are watered at the same time. If this is possible we are very happy to put plants in the troughs and renew them when necessary which would improve the appearance of the Town Hall and add colour to the High Street.

We would be most grateful if you would put this request to the next meeting of the Town Council and hope they will be able to assist.

There are two troughs outside the Town Hall and another directly opposite Barclays Bank. They will be planted up with bulbs for the Spring. Help with watering is mainly for the spring and summer months at the same time as the baskets need watering. We will plant the troughs according to any watering regime that can be set up

Yours Sincerely

Chair of Wem and District Garden Club
