

Street lights on Church Path

In 2017 when the Town Council converted most of its street lights to LED the two lights through the Churchyard of St Peter and St Pauls Church were also converted.

The heads on these lights are not in keeping with the Conservation Area and it is recommended that the lighting heads on these lights are changed to heritage lanterns as shown below and detailed in the attached quote provided by the Town Council's Street Lighting Contractor.

LIT

The cost of this work which will be approximately £1500 can be allocated from the £2000 earmarked from the 2025-26 Streetlighting Maintenance underspend as considered by the Finance Committee on 21.5.26.

Decision Needed

Whether to approve the expenditure from the Streetlighting Earmarked Reserve.
