Subject:

Following my previous email and an afterthought, I would like to see the Town representatives pursue this thought as not to go to i.e highways department and represent their local people if possible

Message:

I was going to do this myself but decided to do this myself.

It concerns traffic speed, which I was involved in the written petition which supported the online petition where I think 600 people signed some years ago.

Nothing seemed to have happened except the speed sign in Mill Street, the situation appears to be getting worse, some vehicles travel in far excess of the STATUTORY SPEED LIMITS. With some people over 60mph by some, the drivers have no consequence, as there is no deterrent.

So I would like to make this suggestion:

That a survey of residents/business be taken by this council, on the High Street, and approaching roads in form of a comment sheet delivered to each residence.

Speed is not just an accident waiting to happen but also causes pollution, sound pollution causes disturbance for people's lives, also making buildings to vibrate.

Yours
