Additional Comments:

Dear Sir or Madam, I reside at [REDACTED] Butler Road in Wem and my property is adjacent to the children's play area which is next to the large grass area in front of my house. It would appear that it is council policy not to cut the grass in this area, but to allow it to grow wild to provide a wildlife habitat. The result of this policy has resulted in the area being overgrown with weeds of which when the wind gets up the seeds will be everywhere including my and my neighbour's gardens. As the grass in this area is not going to be cut for many months I feel our gardens will get infested with weeds. I pay a company called Greenthumb to keep my garden clear of weeds. It costs me over £100 a year to do this service. This is very annoying and myself and my neighbours protest most strongly and insist on this and insist on the reintroduction of the scheduled mowing to curtail the build up of weeds. As the area in question is surrounded by gardens with flowers and shrubs that provide a more than adequate habitat for wild life rendering the overgrown wasteland unnecessary. Myself and my neighbours do hope you will look at this protest favourably and reintroduce the mowing of the area, in order that we can enjoy our gardening and not to have to look at the tip site outside our houses. THANK YOU.
