

Autumn update from Wem Safer Neighbourhoods Team

Wem SNT and the Local organised crime team have successfully completed two separate search warrants under the misuse of drugs acts.

2 persons were arrested after drugs were found and seized. The suspects have been released under investigation while enquiries continue. The warrants were carried out in the Cordwell Park area of Wem, following information and intelligence gathered from working with the local community.

We have also successfully worked with partners in Conexus housing association to evict persons involved in anti-social behaviour.

Wem SNT have arrested a number of drink drivers recently and also taken a number of uninsured drivers off the road.

Wem SNT have continued to actively patrol key area included the town centre and recreational grounds.

We have also been dealing with new COVID -19 legislation, spending time engaging, explaining ,encouraging compliance and when necessary enforcement.

Although burglary and theft offences remain low in Wem and the surrounding area, the darker nights are drawing in, so we are encouraging the community to leave a light on and to be vigilant in reporting any suspicious activity to the police directly on 101.

Kind Regards,

Liam
