

RISK ASSESSMENT FORM WEM TOWN COUNCIL

Use this form to record details of individual risk assessments. Use it with Management of Risk guidance.

Risk Assessment Reference Number:	Date of Assessment: Nov 2018	Date of Review:			
Task/Work Activity/Work Area Assessed: Maintenance of access road and any common areas within the boundaries of allotments, Love Lane, Wem.					
People Involved in Making This Assessment:	Town Clerk	Signature:			
<p>General safety measures: - Refer to Risk Assessments for using specific types of equipment when cutting grass and hedges.</p> <p><i>Operator must work safely on the premises:</i></p> <ol style="list-style-type: none"> 1. Use the lone working system before going to the site. 2. Make sure the condition of the road and common areas are kept to a good standard and free from risks to their own and other people's health and safety. 3. Report any damage, defect, deterioration or hazard to the Town Clerk and make the area safe as quickly as possible. 4. Make sure you use a safe system of work and use the right PPE when either doing routine work or carrying out repair work. 5. Check the work area after a job is finished and make sure tools, materials, waste, etc. are cleared away 6. If a hazardous condition cannot fixed in a few hours put up warning signs to alert people of danger and tape-off the boundary around the dangerous area.. 7. Carry your mobile phone with you make sure it has enough charge. 					
<p>Risk Rating scoring system: Level of Risk = Likelihood x Consequence/Severity</p> <p>20 or 25 High. Unacceptable – Stop or activity until immediate improvements can be made.</p> <p>10 to 16 Medium. Tolerable - needs improvement within a reasonable timescale, e.g. 1 to 3 months depending on the situation.</p> <p>5 to 9 Low. Adequate but look to improve by next review</p> <p>1 to 4 Very Low. Residual risk is acceptable and no further action will be needed if control measures are maintained.</p>					
Score	Likelihood	Description	Score	Consequence/Severity	Description
5	Very likely / Almost certain	Event is expected to occur in most circumstances	5	Catastrophic / Severe / Fatality	Death/permanent disability to one or more people
4	Likely	Event will probably occur in most circumstances	4	Serious injury / ill health	Hospital admission needed, e.g. fracture
3	Fairly likely / Possible	Event could occur at some time	3	Moderate (over 7-day injury)	Medical treatment needed, over 7-day incapacity
2	Unlikely	Event is not likely to occur in normal circumstances	2	Minor injury / ill health	First aid is needed
1	Very unlikely	Event may occur only in exceptional circumstances	1	Insignificant / no injury	Injury does not need first aid treatment

Persons Affected by the Activity	What Hazards Have Been Identified?	Control Measures Already in Place	Risk Level Low Medium High	Further Control Measures Needed	Action		Action Closed
					Who	When	
Employee Tennant Public	Injury because of a slip, trip or fall on the same level. Caused by fallen branches, pot-holes, uneven, wet or muddy ground.	Routine visual check for worn or damaged road surface or kerbs. Visual check of softer ground. Fill in tyre ruts, divots or burrow holes. Rake over molehills or loose spoil. Remove fallen branches, brash; trailing briars or brambles. Report extent and degree of wear or damage on road surface to Town Clerk.	6 (2x3) Low	Establish regular communication with tenants to clarify Wem TC responsibilities and those of the allotment tenants.	PO'H	March '19	
Tennant Visitors Public	Access road shared use with the Wem TC cemetery. Injury from collision with a moving vehicle being used in a funeral service.	Vehicle entering cemetery will be driven at walking pace. General safety awareness around moving vehicles.	3 (1x3) Very Low	Monitor whether other types of vehicle are driven onto the access road.	JR	Dec '19	
Employee	Musculoskeletal Injury – when lifting, carrying or moving ground maintenance equipment	Employee has attended Manual Handling training. Employee will conduct a 'dynamic' assessment for any moving and handling task, to avoid hazardous manual handling and use means to reduce risk of injury if the task cannot be avoided	6 (2 x3) Low				
Employee Tennant	Exposure to pathogenic micro-organisms.	Wash hands and any other contaminated skin after contact with soil, farmyard manure, vegetable compost, blood, fish and bone or bonemeal fertiliser.	8 (2x4) Low	Monitor if farmyard manure is being tipped or stored on common areas.	PO'H JR	Check Spring and Autumn	

Risk Assessment Review	Name	Date
Comments: Next Date for Review Comments: Next Date for Review		
I have read the above risk assessment and I am aware of the hazards stated and understand the control measures to be used.
