>>  
>> This piece of equipment is designed as an area for informal play and nets are not included with the equipment as past experience has found that they require constant maintenance and replacement. If a metal net is fitted there is also the issue that someone could trap their fingers in it which is a risk rospa would not accept.

>>> Dear [REDACTED]

>>> Thank you for your email and your suggestion about the basketball net. I am afraid that the design of the basketball unit on the MUGA is such that it is not possible to attach a net to it, I will however try to contact the manufacturer to see if it is possible to retrofit a net however I think this may be unlikely.

>>> Hi

>>> I live in wem and have been going to the recreational park for many years now and have enjoyed playing basketball with all my friends but we think it would be more beneficial if you could put a net up on the hoop for all the kids that go and play basketball on there, a metal one would be better as people would be able to ruin it hope to hear from you soon
