

The internal audit of Wem Town Council is carried out by undertaking the following tests as specified on the Annual Return for Local Councils in England:

- Checking that books of account have been properly kept throughout the year
- Checking a sample of payments to ensure that the Council's financial regulations have been met, payments are supported by invoices, expenditure is approved, and VAT is correctly accounted for
- Reviewing the Council's risk assessment and ensuring that adequate arrangements are in place to manage all identified risks
- Verifying that the annual precept request is the result of a proper budgetary process; that budget progress has been regularly monitored and that the council's reserves are appropriate
- Checking income records to ensure that the correct price has been charged, income has been received, recorded and promptly banked and VAT is correctly accounted for
- Reviewing petty cash records to ensure payments are supported by receipts, expenditure is approved and VAT is correctly accounted for
- Checking that salaries to employees have been paid in accordance with Council approvals and that PAYE and NI requirements have been properly applied
- Checking the accuracy of the asset and investments registers
- Testing the accuracy and timeliness of periodic and year-end bank account reconciliation(s)
- Year end testing on the accuracy and completeness of the financial statements

Conclusion

On the basis of the internal audit work carried out, which was limited to the tests indicated above, in our view the council's system of internal controls is in place, adequate for the purpose intended and effective, subject to the recommendations reported in the action plan overleaf.

We will follow up all recommendations included in the action plan in the next financial year.

1	The fidelity cover at £609,000 does not cover the maximum projected cash balance of £747,000 (this is calculated as the year end bank balance plus first precept instalment).	<i>The Council should review the adequacy of the level of the fidelity cover.</i>	Implemented

1	<p>The internal controls require that for any new payees, the Clerk scans a copy of the invoice and emails to councillors in order that they can check the bank details.</p> <p>Currently the details of the bank payment are not printed off so we were unable to check the bank details used to allocate a payment to the invoice.</p> <p>Current banking practice is to allocate payments using only the account number and the sort code and not the account name. Banks are introducing changes to this practice and ‘Confirmation of payee’ will be introduced.</p>	<p><i>In order to improve the audit trail, the bank details (account number and sort code) should be printed off for all online bank payments. These can then be checked when required by Councillors or auditors.</i></p> <p><i>The requirement to do this can be reviewed when the bank informs them that ‘Confirmation of payee’ controls have been implemented.</i></p>	Implemented
