1. Introduction

The Council by virtue of its powers under the Local Authorities Cemeteries Order 1977 adopted the ensuing Rules and Regulations. These Rules and regulations will be applied and enforced by the Town Clerk with the support of the Council.

2. Interments

Notice of Interment and appropriate supporting documentation (e.g. certificate of burial,) must be given to the Town Council on the prescribed form and no later than 4 working days prior to the interment. Responsibility for errors on the completed form will lie with the person giving notice.

Interments will normally be held between 10.00 -15.00 hrs Monday to Friday. Interments outside of normal hours, Saturdays, Bank or Public Holidays will be by special prior permission.

The Certificate of Burial or Certificate of Cremation must be handed to the Town Council prior to the interment.

The person having charge of the funeral shall make all arrangements with the officiating clergyman, minister or representative. The Council undertakes no responsibility in this matter.

The Town Clerk's decision shall be final as to the selection and allocation of a grave space.

No burial shall take place, no cremated human remains shall be interred, no headstone or other memorial shall be placed in the Cemetery and no additional inscription shall be made on any headstone or other memorial without the written permission of the Council and after the appropriate fees have been paid.

3. Depth of Graves

No grave will be made deeper than 6' 6" (1.98 metres) but the Council, if they find it impracticable (owing to drainage or other cause) to dig as deep as 6' 6" (1.98 metres) in a particular grave space, reserve the right to specify the maximum depth which can be excavated. All coffins or other receptacles shall be buried in accordance with the requirements of Part 1 of Schedule 2 of the Local Authorities' Order 1977. A 6' 6" grave allows for two earth burials.

Triple depth plots are not permitted at Love Lane Cemetery.

Cremated Remains Interments

In addition to two full body interments, up to six sets of cremated remains are permitted per full burial plot. Two sets of cremated remains to single or double depth can be interred per plot in the rows set aside for cremated remains.

Brick Graves/Vaults

No burial in any brick grave or vault is permitted unless the coffin is separately entombed in an airtight manner by properly cemented stone or brickwork which shall never be disturbed.

Proposals for brick graves and vaults require consultation with the Town Council before any permission can be granted and subsequent interments allowed. The Council reserves the right to refuse brick graves and vaults.

Brick Graves and Vaults must be kept in perfect order.

4. Exclusive Right of Burial

Any person may purchase the exclusive right of burial for a period of 50 Years. The Grant of an Exclusive Right of Burial does not purchase the plot of land. Only the right to use that plot exclusively for the burial of remains or ashes for a period of up to 50 years.

The owner of the exclusive right of burial will not have the right (except by Will or Statutory Declaration) of transferring or otherwise parting with the right of burial in any such grave except with the consent of the Town Council.

So far as it is practicable no grave in which the exclusive right of burial has been purchased will be reopened without production of the deed of Grant or written consent of the owner or his or her legal representative.

It is advisable that once an owner of an Exclusive Right of Burial has been interred themselves within the grave plot, then arrangements be made for a Transfer of Ownership. No further burials, interments of cremated remains, additional inscriptions or installation of new memorials will be permitted until the Transfer of Ownership has been established.

No transfer of an Exclusive Right of Burial for any grave shall be deemed valid unless and until the same is verified and registered with the Town Clerk or Responsible Officer.

All installations must be in accordance with the current British Standard 8415.
